STATE	WAR	NAVY	JUSTICE	R & E	C & D	AAF					

- 25X1 1. The dismantling of railroad ties in the Buschow (Z35) area continues. On 16 May 1947, a train of forty-seven cars [redacted] left from Buschow for Rabba Russka in the Ukraine, and on 17 May, the station requested fourteen additional cars.
- Comment: According to previous reports, the dismantling of the Buschow line was completed except for several carloads. Rabba Russka is probably Rawa Ruska (S51/W86) near Lvov.
2. On 13 May, Bredow (Z55) station requested fifty freight cars, into which the Russian occupation authorities loaded all the stock from the Bredow estate: cows, calves, pigs, sheep, and small animals, but no horses. Several officers accompanied the train [redacted] which left during the night of 13/14 May for Insterburg (East Prussia) via Küstrin (V38).
- [redacted] An additional train had to be dispatched to Kienberg (Z56) on 10 May, allegedly also for the shipment of cattle.
3. A lively traffic in incoming and outgoing freight cars was observed at the food depot Satzkorn (Z51), where [redacted] Russian troops are continually forwarding supplies. Four cars full of peeled barley were dispatched to Strausberg (V15), and twenty cars loaded with flour for the Soviet army arrived on 16 May from Dresden.
4. The sugar factory at Netzin (Z44) mentioned in previous reports currently receives raw sugar from the Vorpommern area. Since the factory operates under Russian supervision, it is assumed that the finished sugar will be shipped to Russia.

- 25X1 5. [redacted] on 10 May 1947 a train with four cars of potatoes from Mecklenburg passed through Wustermark (Z55). During the night, the Russian soldiers sold the potatoes at reasonable prices or exchanged them for other goods. A similar case was reported on 16 May, when eight carloads of peas were sold for 20 RM per 2 kg at Rostock.
